## Math and Reading Partners 2010

### Student Application

Math and Reading Partners is a summer program for children finishing Grades K-5. Students are individually paired with an adult or high school volunteer from the community who will help them practice their math skills **and/or** reading skills over the summer months. The Youth Services Department hopes that you will consider participating in this successful program!

Math and Reading Partners usually meet for **30-45 minutes per week** between **June 28 and August 27**. Volunteers must be able to meet for least **4 sessions** during this period to participate. Please note there will be a **Meet and Greet** for new partners **in the morning on Monday, June 28th** - more information will be sent to you about the Meet and Greet, along with your welcome packet and partner information, the **1st week in June**.
