How to Navigate an e-Book in Adobe Digital Editions

Select the title you’d like to read from the bookshelf screen of Adobe Digital Editions. You will also be able to see which titles have expired and how many days are left on other titles.

You can open the e-book by double clicking on the cover/title or by right clicking and selecting open book. (This is also where you can return a book by selecting Return Borrowed Item.)
Once you have opened the e-book, use the On-Screen Navigation to jump to specific sections. You can also use the scroll wheel on your mouse or the arrow keys on your keyboard to advance pages.
